**ABOUT NOVOLYZE**

Novolyze is a rapidly growing company that empowers the food & beverage industry to enhance food safety & quality performance in a rapidly changing environment, with teams in Serbia, in France and in the US. We offer application-driven, tech-enabled solutions to activate a groundbreaking, holistic approach to food safety and quality. We leverage the power of IoT and cloud computing to unify food safety and quality data, transform them into actionable insights, and enable real-time decision-making.

Our team is composed of experienced food safety & quality professionals offering cross-functional expertise in microbiology, and process engineering, SaaS Solution engineers and many others. At Novolyze, we all share the same passion for making the foods we eat everyday safer while improving the sustainability of food production systems. Our values encompass Customer Success, Boldness, Team Spirit, Agility & Impactfulness.

Novolyze Doo provides 25 vacation days per year.

If you have a desire to grow with a dynamic company, make a major difference within the organization, and thrive working in a fast-paced environment, then this opportunity may be for you.

## JOB DESCRIPTION

As a back-end developer, you'll be in charge of the design and development of the backend of our SaaS Solution hosted on Azure.

With at least 5 years of experience in the backend development, you are focused on quality and scalability. You want to join an ambitious team to create innovative solutions while keep learning and improve your skills.

## RESPONSIBILITIES

- Develop and maintain our solution backend architecture on Microsoft Azure platform
- Participate in technical design
- Translate functional to technical specifications
- Participate in code quality improvement
- Analyze and fix issues
- Review your teammates code
- Write unit tests
- Draft technical documentation
- Ensure application performance
- Support projects from design to finished product
- Keep abreast of technical developments related to the development of applications on the Microsoft Azure environment
- Increase your understanding of the Food Industry area
- Participate to your team Scrum events

## SKILLS

- Proficient in C#
- Proficient in Relational DB Modelling and SQL
