ABOUT NOVOLYZE

Novolyze is a rapidly growing company that empowers the food & beverage industry to enhance food safety & quality performance in a rapidly changing environment, with teams in Serbia, in France and in the US. We offer application-driven, tech-enabled solutions to activate a groundbreaking, holistic approach to food safety and quality. We leverage the power of IoT and cloud computing to unify food safety and quality data, transform them into actionable insights, and enable real-time decision-making.

Our team is composed of experienced food safety & quality professionals offering cross-functional expertise in microbiology, and process engineering, SaaS Solution engineers and many others. At Novolyze, we all share the same passion for making the foods we eat everyday safer while improving the sustainability of food production systems. Our values encompass Customer Success, Boldness, Team Spirit, Agility & Impactfulness.

Novolyze Doo provides 25 vacation days per year.

If you have a desire to grow with a dynamic company, make a major difference within the organization, and thrive working in a fast-paced environment, then this opportunity may be for you.

JOB DESCRIPTION

As a front-end developer, you will be in charge of the design and the development of the front-end of our SaaS Solution on Angular framework.

With at least 5 years of experience in the frontend development, you are focused on usability, reliability, performance, and scalability of your code. You want to join an ambitious team to create innovative solutions while keep learning and improve your skills.

RESPONSIBILITIES

- Develop and maintain frontend architecture of our web solution
- Design and develop the user interface
- Ensure the solution is responsive
- Ensure application performance
- Support projects from design to finished product
- Face technical and business needs
- Keep abreast of technical developments related to the development of applications on the Microsoft Azure environment
- Increase your understanding of the Food Industry area

SKILLS

- Proficient in fundamentals frontend languages like HTML, CSS (Bootstrap) et JavaScript (jquery)
- Expertise in at least one Frontend Framework like React JS or Vue JS but preferably Angular JS
- Write clean, structured, reusable and scalable code
- Excellent oral and writing communication skills
- Fluent in English
- Notion of wireframing and/or prototyping with solution like Balsamiq, Sketch or Invision
- Problem solving oriented
- Attention to details and rigorous

CULTURAL FIT

- Good adaptability to change
- Ability to work alone and within a team
- Be team success oriented
- Willing to learn and improve your skills
- Positive attitude
- Be Impact oriented (pick up the most impacting actions)

APPLICATION
